**Re: Waller Health Center
60 E. Warren Avenue
Detroit, MI 48201**

Dear Mr. Bradley:

The purpose of this correspondence is to confirm that The Beresh Group, Inc., was the General Contractor for the above captioned project, completed in November 2009.

The structure, a previously vacant gymnasium, was totally gutted and renovated to include new medical suites, exam rooms, and site renovations. The project was completed in less than a 60-day construction period.

The Beresh Group worked closely with the City of Detroit in obtaining required permits and the Certificate of Occupancy that allowed us to move in on November 25, 2009.

The Beresh Group, Inc. performed in an exceptional manner. Please do not hesitate to contact me regarding recommendation for future work.

Sincerely,

Joe Ferguson, MHA, FACHE
Executive Director
